

River Thames Frost Fair

BETWEEN 1600 and 1814, it was not uncommon for the River Thames to freeze over for up to two months at a time. Local Londoners - as enterprising and resilient as ever - decided to make the most of it and set up the Thames Frost Fairs. Y4 re-enacted one of these Frost Fairs in school on Monday constructing stalls selling toys, books, clothes, ice skating tickets and homemade vegetable soup. The children thoroughly enjoyed this activity which was part of the current Y4 topic - learning about the uses of the Thames today and throughout history.

Listen to the Beat

THE SOUND of drums were heard from the school hall on Wednesday as Year One took part in an African drumming workshop. The children heard some traditional African stories and had the opportunity to create different rhythms and beats through drumming and song. Great noisy fun was had by all!

The Famous Fortress

RAVENS, Beafeaters and the Crown Jewels were just some of the amazing historical sights to see when Year 6 visited the Tower of London this week as part of their spring theme of Crime and Punishment. The children took part in a workshop looking at real artefacts used in connection with medieval punishments.
