

## Written in the stars

DO you know how to find the big dipper? It's not necessarily at the fun fair as the year 5 children found out this week when the mobile planetarium visited school. Crawling into the darkness of the dome the children discovered the weird and wonderful

names of the constellations of stars. They found out that if they could locate the big dipper in they sky then they could find the North Star. Take a look up into the night sky, maybe you can find the big dipper, or the little lion or maybe even the flying fish!

**Christmas is coming!**

INFANT parents look out for Nativity letters coming home today and on your email. Don't forget to apply for your tickets asap!

**Coming soon...**

Junior Carol Service (14 December) letters.

School Christmas lunch (14 December) letters

## Good news

Mrs Dyer was delighted to discover that the recent PTA Glow disco's raised enough money to buy the school a defibrillator which is on order and should be with us soon.

### Thank you

A big thank you to everybody who donated their packets and tins for Harvest Festival. We are pleased to let you know that we gave 278 kgs of food which will help families with emergency need.

### Reminder

We are so grateful of your continued help and kindness and we ask once more if you can to fill your shoe box and give a needy child a Happy Christmas. Boxes in school by 21 November please.

## School building update

DURING half term, work started on the refurbishment of our school hall and as you can see from the picture Mrs Dyer has been inspecting the work.

The stage has been removed and will be replaced with an additional learning area which will include a concertina door which can be pulled back to give us larger hall space.

We would be unable to make these improvements without your building and maintenance contributions which we appreciate very much.
