

Waves of Intervention Model

Special Needs Waves of Intervention Model

Wave 1

Wave 1 is good quality, inclusive teaching which takes into account the learning needs of all the children in the classroom.

This includes providing differentiated work and creating an inclusive learning environment.

Wave 2

Wave 2 outlines specific, additional and time-limited interventions provided for some children who are falling behind the age expected level.

Wave 2 interventions are often targeted at a group of pupils with similar needs.

Wave 3

Wave 3 is targeted provision for a small percentage of children who either require a high level of additional support/specialised provision in order to address their needs or is for children who have been identified for an intervention designed to accelerate progress.
