

I have never been in a time machine before" I said, as I nervously stepped inside. I had no idea that I was about to set off on the Journey of a lifetime. I frantically pushed all the buttons. I held my brother's hand. "It will be ok" I told him. The time machine shook and bumped and then there was silence. I looked at my brother. "How will we get out of the time machine" I said "I don't know" said Logan. Just then I saw a small button on the roof. I pressed the button and then I heard something. I looked behind me and a door opened. I was amazed. "Wow" I said.

I saw tall, green trees, bright colourful flowers and I could hear animals singing in trees. "this is fantastic" Logan said.

Logan let go of my hand calmly and we stepped out of the time machine.

"What is this place" I said then.

I went for a walk with my

brother it was beautiful. soon I saw something I got closer and I saw

a dinosaur "oh no" I said. "It is a

Tyrannosaurus rex. Be careful Logan.

This dinosaur is a carnivore. look at

its strong legs and sharp teeth." We

carefully tiptoed away. "We don't

want him to see us because

he might try to eat us and we

won't make it home." I

whispered. we walked a little

further holding each others hand tight. There were lots of scary noises all around us. Everyone's birds were shrieking in the tall trees. I could see blue and yellow 'unusual' plants. We walked and walked until we came to a beautiful beach. I could see a nest on the beach. The nest was made out of long twigs and had lots of dotted eggs. A pterodactyl swooped down to her nest. My brother and I froze in fear. "The mummy pterodactyl might attack us!" Just then the ground shook, rumbled and

trembled and I saw something in the distance! There was smoke in the sky it was a huge volcano! The teradactyl flew away with fear "oh no" Said Logan. "We need to get out of here." We both ran back to the time machine. We were both out of breath we got to the time machine the doors opened. I pushed all the buttons the time machine shook and bumped I pressed the button on the roof again and the doors opened and finally we were home. The end.
