

Year 1

English

Maths

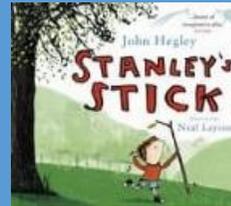

This half term in maths we will focus on:

Subtraction within 20. We will be using number lines and finding number bonds to 20. We will be looking at doubles and missing number problems.

Place value to 50. Finding 10s and 1s and plotting numbers on a number line.

**This half-term
we are reading:**

Stanley's Stick

This half term we will be reading the book Stanley's stick.

We will be focussing on sentence punctuation including capital letters, full stops, exclamation marks and question marks.

SPRING 2

Art

We will be learning how to tie a knot, thread and plait with a combination of materials.

Music

We will be listening to and appraising different styles of music.

RE

This half term we are learning about the Christian celebration of Easter.

Our big question is:

Why is Easter the most important festival for Christians?

Science

This half term we are looking at animals. We will be grouping animals and looking at different characteristics.

Geography

We will be learning about Africa. This will include:

- Looking at maps.
- Looking at the human and physical features.
- Making comparisons to our prior learning of the UK.

Computing

We will be learning simple programming skills using the software Scratch.

PE

Our focus will be Dance.

We will be creating dance inspired by the weather and pirates.
