

# Year 6

## Maths

This half term we are learning all about:

Ratio and proportion, applying our knowledge of parts and wholes to calculate different amounts.

Algebra- learning about simple formulae and equations to calculate missing numbers.

Statistics -applying our knowledge of percentages to pie charts.

We will be revising our knowledge of area, perimeter and volume.

### This half-term we are reading:

## SPRING 2

## English

Across our English texts we will be exploring journalistic writing by identifying viewpoints and bias.

We will write from different points of view using the active and passive voice and have the opportunity to role play different characters.

We will also work towards writing our own version of a narrative applying our knowledge of the different tenses.

## RE

Our big question in RE this half term is 'How does the Christian festival of Easter offer hope?'

We will be thinking about how the Easter Story evidences, hope, salvation and forgiveness.

## PE

This half term we will be developing our skills in fitness and volleyball.

## Science

This half term we are learning all about evolution and inheritance.

We will learn about how living things have evolved over time and Darwin's theory of evolution.

## Geography

In Geography we will be studying the UK with a particular focus on Devon.

We will be identifying the key human and physical features of Devon, as well as learning about grid references and how to use a compass.
