

Year 6

English

Maths

This half term we are learning all about:

Shape: calculating area and volume.

Statistics: applying our knowledge of percentages to pie charts.

Position and Direction: plotting coordinates, as well as translating and reflecting shapes.

This half-term

we are reading:

In English, we will be exploring the great playwright, William Shakespeare, with his tragedy, Romeo and Juliet.

In guided reading, we are continuing to enjoy the classic novel, The Wolves of Willoughby Chase and will be looking at how the author uses language to create meaning.

Summer 1

RE

Our big question this half term is **'How has the Christian message survived over 2,000 years?'**

We will be learning about how the early Christian message spread and why Bible translation is important.

Science

We will be exploring the human body with our big question **'What makes us tick?'**

The children will discover the circulatory system and understand in greater detail the function of the heart, blood vessels and block.

Geography

In geography, the children will study an area of the UK, identifying the physical and human features. They will also learn about grid references and how to use a compass.

PE

This half-term, we are enjoying some traditional summer sports of tennis and athletics.
