

History

In history I am going to be learning about significant historical events, people and places in their own locality.

- How transport has changed over time
- Who are the Wright Brothers?
- The Wright Brothers and the first flight
- The history of Brooklands and achievements
- Who was Hilda Hewett and why was she a ground breaking local pioneer?
- What is Brooklands and why is it an important local place?
- The History of Heathrow airport and the impact on Ashford

Geography

In Geography the children are going to use simple compass directions and map skills to locate Heathrow and locations of other key airports in the UK. They will investigate the changes to Ashford through the development and expansion of Heathrow over the years.

Extra-Curricular Activities

At home: Make a model aeroplane out of recycling. Be plane spotters and track flights above our homes. Act out and re-create airport check-in processes. Design your own plane ticket. Transport walks – create a list of things to spot and see on your walks.

Places to visit: Science museum. Heathrow airport tour with British Airways. Mercedes Benz world

Art and Design

In Art and Design I am going to be exploring colour wheels and the life and work of Kandinsky

- Evaluating the life and work of Kandinsky and his love for wheels
- Creating our own colour wheels through colour mixing, blending and looking at tones
- Looking at the work of Kandinsky and talking about what we like, dislike, feel and see in his work.
- creating our own circle experiments in our new sketch books
- Recreate our own Kandinsky wheels using skills of colour mixing and circles

Key Vocabulary

after	pilot
before	inventor
century	engineer
chronology	airport
past	testing
present	runway
travel	airport
transport	track
aviation	important
