

## Under Construction

THIS term, Year 5 have been learning about bridge structures in DT. They started by creating simple beam bridges out of card and then adding arches, lamination and corrugation to reinforce the structure and make it stronger.

This week, they looked at truss bridges and how the use of triangles makes them a more stable and stronger structure. They then built their own truss bridges out of spaghetti (dried not cooked!) and evaluated and reinforced the structures to hold over 1kg in weight!

WE are so happy to be able to say a massive thank you to the PTA who have funded our amazing new projector and screen for the hall. Also to any parents and carers that have helped at any of our fundraising events or if you came to the summer fayre and spent your money a big thank you to you too.

The new projector and screen is now situated at the back of the hall so we no longer get the glare from the windows and it is a large screen that can be seen and read very easily.

**On the left you can see the new screen and projector in action! Mrs Bailey leading the first worship with the new equipment.**

So what is going on in the picture below? This half term we are looking at the value of compassion and the children were looking at a passage from the bible Colossians 3 V12-14 which tells us to clothe ourselves in compassion, kindness, humility, meekness and patience. So when we get ourselves dressed everyday, while we all might wear something different, we should all wear these qualities everyday too.

Why not think about that when you are choosing what to wear everyday.
