

The appliance of science

YEAR 2 children put science to the test this week when they tested their wind-powered vehicles. Working in teams, they planned and designed a vehicle made from recycled materials. Their vehicles were put to the test in a race to see which design and what materials worked best. The end result was that they all worked very well!

Coming up next week

NEXT week, Years 1—6 will be competing in our Inter-house football competition. If you still need a house t-shirt please use the order form available from the school office.

Thursday next week is Mufti Day. If you would like to wear your own clothes to school you can do so for a £1 donation. All proceeds to help our school.

Friday next week will be Inset day so there is no school for children on this day.

New school applications

DO you have a child who is due to start school next September or know somebody who will be looking for a school place? Due to current restrictions we are unable to offer a new parent meeting and school tour this year. However, we are delighted to announce that our virtual school tour will be available to view on our website from Monday. Any questions please email the school on info@ashford-primary.surrey.sch.uk.

Black History Month

AS part of Black History Month we thought we would pay tribute to somebody who is currently making history. Marcus Rashford. For those of you that don't know, he is an English professional footballer who is currently making headlines with his campaign to end child food poverty. His petition to provide free school meals during the school holidays for eligible children has now more than 200,000 signatures which is more than enough to go to Government debate.

Well done to him and congratulations on his MBE which is thoroughly deserved.

Writers' corner

I will find my lovely brother said the girl. She remembered she had a rose gold butterfly net and some water and a bucket in her bag and off she went to find her brother.
