

Today we are going to be testing different types of soup.

- When we test a product we need to use all of our senses.
- We need to use our eyes to describe what it looks like.
- We need to use our nose to see what it smells like
- We need to use our mouth and tongue to see what it tastes like.

Main Task

You are now going to compare some different soups. If you are at home and only have one type of soup that is absolutely fine, you can talk about that one.

Main Task

First of all look at the ingredients that are in your soup, this can be found on a label on the tin or carton.

Write them down on the worksheet.

Were there any ingredients that surprised you ?

Main Task

- **Now have a look at the soup.**
- What colour is it?
- Can you describe what it looks like?
- Write this down on the sheet.
- **Now taste the soup.**
- Think about the smell as well.
- What does it taste like?
- Do you like it ?
- Write this down on the sheet.

LO To be able to evaluate different soups.

Self Assessment: 😊 😐 😞
