

Dear Parents/Carers

9th December 2020

We are delighted to announce that, despite the challenges faced by both the arts and education sectors during the recent pandemic, the amazing M&M Theatrical Productions have been hard at work to bring to schools the magic of theatre once again, in an entertaining, immersive, and most of all, safe format.

Therefore, we are proud to announce, brand new for January 2021, an innovative and immersive new experience in school

The Wizard of Oz

Unfortunately, due to the current situation this year, we haven't been able to raise much needed funds for the school. We therefore would only be able to offer this fantastic opportunity with contributions from our parents.

Please make your contribution of £3 via our online payment system Tucasi.

So, what does Cinematic Theatre involve?

- A giant cinematic screen, in complete high definition! Watch the characters on their adventures as they burst from the screen to entertain your audience. You'll feel like your gym, hall or dining room has been completely transformed into an interactive cinema!
- A fully DBS-checked and professional headliner to guide the audience on their adventure! In full costume and as a part of the production, our actor will jump in and out of the story, making sure the audience are fully engaged and entertained throughout.
- A complete cinematic sound experience, allowing for the entire audience to enjoy the magic of theatre like never before!
- Our team have ensured that all of our actors have been fully trained to sanitise all equipment, and we have strict guidelines in place for them to ensure your safety. We are only visiting one venue per day, in order to minimise the risk of cross-contamination.
