Opportunity to download learning journal

Dear Parents and Carers,

As your child is nearing the end of their time in Reception their online Tapestry learning journal is now completed. Please see below for instructions to help you download the journal at home so that you can save it to a device or print your own copy. **Please note that we will not be able to resend these downloads after the summer holidays so if you would like to keep the journal you need to download it now.**

We have sent the download to relatives linked to your child's Tapestry journal. To find the document you will need to look in your downloads section.

You will then see a button for you to click which will download the journal for you. You can then save or print the journal as you wish.

I hope that you enjoy looking at your child's wonderful learning from this year. If you have any difficulties with the download please speak to your child's class teacher or come to the office and we will try our best to help.

Thank you for all of your support this year.

Yours sincerely,

Lesley Bailey
Deputy Headteacher
