

How to Wash a Woolly Mammoth Instructions

Write down some of the instructions from the book but add in conjunctions to add more information.

For example:

Step one: Fill the bath tub **because** a woolly mammoth will need lots of water to wash in.

Step two: Add bubble bath **so** the woolly mammoth can feel clean and fresh.

The worksheet is designed for a writing exercise. It consists of a central writing area with ten horizontal lines. This area is framed by two vertical columns of eight woolly mammoth illustrations each. The top and bottom rows of the page are also filled with woolly mammoth illustrations, creating a border around the writing area.
