

What do you think is happening in this picture?

Why has it happened?

What do you think it feels like to have no gravity?

What new things could you do?

What can't you do now that you can normally?

Today you are going to plan your story about the day that gravity disappeared from Earth. You need to think about the start of your story and why gravity went away. Did a scientist carry out an experiment? Was it a magic trick by a magician? Did you find a special button to press? Did something else happen?

The middle of your story needs to describe what it felt like moving around without any gravity. What was fun? What problems did you have?

The ending needs to finish your story. Did gravity come back? If so how? Or did it never come back so you found ways to live like this ?

Complete the planning sheet so that you can write your story tomorrow.
